

Professional Summary

Computer Science undergraduate with internship experience in Artificial Intelligence and Full-Stack Development, specializing in Python, MERN Stack, Streamlit, REST APIs, and LLM-based applications. Strong knowledge of Data Structures & Algorithms, DBMS, OOP, and software engineering, with a passion for developing innovative and scalable solutions.

Experience

AI Intern — Mirai School of Technology	July 2026-Present
- Developed AI-powered web applications using Python, Streamlit, LLMs, and AI APIs, implementing prompt engineering for intelligent chatbot solutions. - Optimized AI workflows through API integration, Git/GitHub, and software development best practices to build scalable AI applications.	
MERN Stack Development Intern — Dotsquares Pvt. Ltd.	June 2025-July 2025
- Developed full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) and implemented modular application features. - Collaborated on debugging, performance optimization, technical documentation, and blog content while following software development best practices.	

Academic & Personal Projects

Boutique Management System React.js, Node.js, Express.js, MongoDB, Razorpay
- Developed a full-stack boutique management system featuring role-based authentication, order management, worker assignment, invoice generation, and customer management. - Integrated Razorpay, REST APIs, dashboards, analytics, and secure payment workflows using React.js, Node.js, Express.js, and MongoDB.
CareerPilot AI Python, Streamlit, Gemini API, Prompt Engineering
- Built an AI-powered career guidance platform using Python, Streamlit, and Gemini API to provide personalized career recommendations and interview preparation. - Implemented LLM integration, prompt engineering, resume analysis, and interactive AI chat features to enhance user experience.
VisionGuard – Object Detection & Tracking Python, OpenCV, YOLO
- Developed a real-time object detection and tracking system using YOLO and OpenCV for accurate object identification in live video streams. - Optimized detection performance through image preprocessing and implemented object tracking for continuous monitoring.

Technical Skills

- Programming Languages:** C, C++, JavaScript, Python
- Web Technologies:** HTML5, CSS3, React.js, Node.js, Express.js, MERN Stack, REST APIs
- Databases:** MongoDB, Firebase
- AI & ML:** Prompt Engineering, Large Language Models (LLMs), Streamlit, OpenCV, YOLO,NLP
- Mobile Development:** Flutter, Dart
- Tools & Platforms:** Git, GitHub, VS Code, Postman, Canva
- Core Concepts:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Education

Punjabi University Patiala - Bachelor of Technology (Computer Science and Engineering) Aug 2023-May 2027
CGPA: 8.5/10 (Up to 5th Semester)

Leadership & Achievements

Premium Milestone – Google Cloud Arcade Facilitator Program 2024 - Active participant in Web, Android, Flutter, AI/ML & Full-Stack workshops (GDSC/GDG) Web Development Lead – Google Developer Groups (GDG) on Campus, Punjabi University Patiala	2025-Present
